- CD-ROM or DVD-ROM Drive

Connectivity
- Cable length: 1.5 metre
- Interfacing: USB 1.1, USB 2.0
- USB video class: UVC
- Power: Supplied via USB cable

Product dimensions
- Product dimensions (W x H x D): 4 x 5.6 x 1.2 cm
- Product dimensions with stand (W x H x D): 4 x 8.8 x 8.8 cm
- Weight (with stand): .105 kg

Packaging dimensions
- Packaging dimensions (W x H x D): 19 x 19 x 10 cm
- Nett weight: .174 kg
- Gross weight: .5 kg
- Tare weight: .326 kg

Outer Carton
- Outer carton (L x W x H): 59 x 39.8 x 12.7 cm
- Nett weight: 1.044 kg
- Gross weight: 3.8 kg
- Tare weight: 2.756 kg

Product highlights

True 1.3 Mega Pixels
You won't miss a thing with true 1.3 Mega Pixels of video resolution. Superb, high-quality moving images for easy-on-the-eye webcamming.

8 Mega Pixels photo resolution
Your webcam gives you more detail with 8 Mega Pixels (interpolated) resolution photos. This is high enough for printing poster-sized images in high-resolution.

60 frames per second video
Create natural-looking, full motion video at 60 frames per second. It's ideal for video-chatting with friends or high-quality home monitoring.

5x digital zoom
Zoom in and out to get the perfect framing for any image. You control the zoom entirely via the onscreen interface while you're looking at the image so you can adjust it perfectly.

Wide-angle lens
The wide-angle high quality glass lens gives you a bigger field of view. The wide-angle lens operates in the same way as a wide-angle photography lens and it gets more people in the video frame without any loss in video quality.

Automatic face tracking
The state-of-the-art camera software automatically detects your face and moves the lens to follow you as you move. You stay in the center of the image even if you move during a video conference. It gives you the freedom to express yourself and converse naturally.

Skype Certified
This webcam has been certified by Skype. So, you can be sure of high-quality video and sound, free calling and instant messaging to anywhere in the world.

Built-in directional mic
Experience high-quality sound thanks to a built-in directional microphone. Talk naturally and freely or add sound to a video clip recording.

Noise reduction
This superb noise reduction technology reduces background noise and it enhances clarity of speech in both quiet and noisy environments.

Multimedia headset included
Included with your webcam is a Philips multimedia headset. The head mic ensures optimum sound quality and comfortable use.

Change Your Background
Replace your real-life background and fool your friends into thinking you're somewhere else! You can move around and chat as normal, while the software automatically fills in the background behind you. There are 15 great backgrounds to choose from, or you can upload and project your own favorite backdrop.

Exciting fun frames/effects
Keep chatting fun by adding the unexpected. Surprise your friends with one of ten themed fun frames around your face to match your chat. Or entertain them with special fun effects that will make you look like negative, embossed or even distorted.

Add fun logo to your webcast
Personalize your webcast or blogs by adding your own fun logo. This special software enables you to insert a small image in any corner of the streaming video, the same way that TV channel logos appear on your television.
